An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The specification has been amended as follows:

On page 1 of the specification as originally filed, the three lines between the title and the heading "FIELD OF INVENTION" have been deleted. In other words, the paragraph reading "This is...1998." has been deleted.

Upon review of the application in preparation for allowance, the examiner noted that the amendment to page 1 of the specification as set forth in the preliminary amendment filed January 14, 2004 requested insertion of two paragraphs after the title and before line 1. However, the text of the first three lines after the title is incorporated into the second paragraph inserted before line 1 by preliminary amendment. Accordingly, the first three lines on original page 1 are unnecessary and are deleted by this examiner's amendment.

The terminal disclaimer filed on August 16, 2004, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S Patent Nos. 6,692,820 and 6,451,415, has been reviewed and is accepted. The terminal disclaimer has been recorded. Accordingly, the obviousness-type double patenting rejection set forth in the Office action mailed May 25, 2004 is overcome.

Claims 25-42 are allowed. (The claims are renumbered as 1-18 in the following order: 25, 26, 28, 31, 27, 30, 29, 32-35, 37, 40, 36, 39, 38, 41 and 42.)
